| Name of Policy: Emergency Notification and Timely Warnings |
| Source: Campus Security |
| Form to Complete: N/A |

Policy:

The Clery Act requires that an **Emergency Notification** be issued by the college when an ongoing event presents an imminent threat to the campus, and a **Timely Warning** be issued when a crime has already occurred but may represent a serious or continuing threat.

Emergency Notifications will be made via the campus wide alert system and any other available means of communication. **Timely Warnings** may be shared by e-mail, social media and/or postings on bulletin boards at key locations in campus buildings.
