### **MSDS – MATERIAL SAFETY DATA SHEETS**

#### **Department's Responsibilities**

Material Safety Data Sheets (MSDS's) are required as part of the KCAI Department of Safety & Security program to meet compliance with the OSHA Laboratory Standard, and the OSHA Hazard Communication Standard.

- Material Safety Data Sheets (MSDS) must be obtained for all hazardous supplies and chemicals used in the departments. A binder will be centrally stored with this information and safety procedures. Make yourself aware of the binder's location.
- Material Safety Data Sheets will be maintained by each department. This book will be available at all times to persons working in that area. Make yourself aware of the material in a MSDS.
- A copy of all updates and additional sheets will be sent to the KCAI Safety & Security Department (to maintain a backup file).

## **How to Obtain an MSDS**

# (Material Safety Data Sheet)

1) Keep and use the MSDS which is shipped to you with a chemical, or use the MSDS which is forwarded to you or your department.

2) Use WWW Internet access to find an MSDS for a chemical or product. MSDS information is now widely available on the World Wide Web.

SIRI MSDS Index: <http://hazard.com/msds2> (SIRI MSDS Index.)

MSDS Links: <http://hazard.com/msds/links.html>

3) To find a MSDS for your chemical or product, use your department's MSDS collection. Often it is kept in a large, yellow three-ring binder and can be located in your department's library or other common use area.

## Hazardous Material Labels

To help you identify hazards when handling hazardous material, Federal Law requires all hazardous chemicals to be clearly labeled. These labels summarize the information provided in the MSDS, and must never be damaged, covered or removed.

HMIS (Hazardous Material Information System)

The system communicates chemical hazards through a system of color and numeric coding. The colors on the label represent the specific type of hazard: Blue represents the health hazard, red indicates the material's flammability and yellow represents its reactivity. The number inside

each color indicates the level of danger associated with each hazard (0 = minimal hazard, 4 = severe hazard).

The labels final section uses an alphabetical code to designate the Personal Protection equipment (PPE) required for handling the material safely. A PPE key will usually accompany the label, although some chemical have additional requirements listed on the MSDS. This label also provides information on the chemical's likely routes of entry into the body, the organs it affects, and the specific health and physical hazards associated with the material.

## Special Precaution Symbols

**OXY = Oxidizer    ACID = ACID    ALK = Alkali    COR =**

**Corrosive HAZARDOUS WASTE MANAGEMENT AND**

**UNIVERSAL WASTE**

Contracted services handle the Institute's hazardous waste disposal. Call Plant Services at 802-3437 for details.

***INDIVIDUAL RESPONSIBILITY***

The cooperation and involvement of students, faculty, and staff in a campus safety program is absolutely necessary. All individuals must assume responsibility for their personal safety and the security of their personal belongings by taking simple, common-sense precautions.

Students, faculty and staff should have their vehicles registered with the Department of Safety and Security. Both parking and bicycle permits are available at "NO COST". Vehicles should be kept locked at all times and valuables stored out of view.

Everyone should be alert to unusual or suspicious persons or activities and immediately report these incidents to the Campus Security at 816-931-6666.

Take advantage of the safety programs and services provided by KCAI.

## **ASSOCIATES**

KCAI Security enjoys an excellent working and cooperative relationship with the Kansas City Fire Department, Fire Marshall's Office, Kansas City Missouri Police Department and other campus police/security agencies, with memberships in International Association of Campus Law Enforcement Administrators, Missouri Association of Campus Law Enforcement Administrators and Metro-Central Security Group.

## **KCAI COMPLIANCE**

**COMPLIANCE WITH THE CAMPUS SECURITY ACT** - DOE federal law. Student Right
